

Big Archive...Small Price

After years of building custom archive systems for clients, we felt the market was calling for an affordable alternative in data archiving.

We have taken known and trusted equipment from manufacturers that we have worked with for years and integrated them into a single usable and stable product.

COMPLETE LTO-5 DATA ARCHIVE SYSTEM

Perfect for media production environments

- Powered by XenData Archive Software
- True Hierarchical Storage
- Mount the entire archive as a single file system as a Windows logical drive (Includes the tapes that are off-line)
- Drag and Drop files to and from the archive
- Compatible with Windows and Mac OSX
- Optimized for CIFS/SMB and FTP protocols
- XenData archives using POSIX tar format so tapes can be restored even without XenData software.

TOWER SERVERS INCLUDE:

- Intel Quad-Core Processor
- 4GB Memory
- (4) 1TB Hard Drives
- RAID 5 Storage
- SATA DVD-RW Drive
- Gigabit Ethernet
- Redundant 500W Power Supplies
- Windows Server 2003 Std Edition
- *HP Ultrium LTO-5 Tape Drive(s)

*XV1: Includes a single LTO-5 Tape Drive

*XV2: Includes two LTO-5 Tape Drives allowing for multiple copies of each tape to be made, facilitating off-site disaster recovery.
